# TCR FOR [DM.RO]

## 1. Introduction

There are a number of 3 US that refer to the areas of the Homepage: Functionality Middle Menu, Shopping Cart, Cookies

## 2. In Scope

US ID	US Name	Description
AMN-5	Homepage - Functionality Middle Menu	On the main page, is checked if on Middle Menu are 13 categories present, with consistent button design, without grammatical errors and which are functional, each leading to the page related to the corresponding content.
AMN-6	Shopping Cart	It's checked the widget for shopping cart, position first from the right side, and when a product is added to the cart, it should display the message "1 item added to the shopping cart" ; the shopping cart widget should display the number of products added to the basket, this being highlighted by a red circle, positioned at the top right of the cart widget.
AMN-7	Cookies	Is checked the main page, when are accessed the 3 pages: MEREUAVANTAJOS, IMPREUNA, activeBEAUTY, and check if the box for cookies appears when opening each page, accompanied by 2 buttons, namely "agree" or "No, thank you".

## 3. Out of Scope

US ID	US Name	Description
AMN-1	Top Menu	Is checked if the 3 navigation options buttons on the right side from the Top Menu, are functionals.
AMN-2	Logo Display	Is checked if the logo company is present on the left side of the Homepage, is present on every pages accessed from Header Menu, Main Menu and which helps to navigate to the home page.
AMN-4	My Account DM	Is checked if the widget for "my account" on the right side from home page, can be accessed it and is functional, having two options, authentication and registration; when clicking on authentication button and completed with valid username and password, is functional and login successfully.
